I was fascinated by your article, in Equilibrium on
coin scales and CCDs of the first three ^{USA} presidents.
You certainly did a great quantity of research and
must have enjoyed it immensely.

I am working on a similar problem as I have a very early
scale with ~~no~~ a label for specific United States
use, but ~~no~~ ^{without} date or person; it is ~~not~~ ^{un}listed anywhere.
I have told Diana about it and she is helping me because
the scale is English-made.

POYNTELL
Your ~~label~~ ^{area} label is for Philadelphia and New York
money of account and not that of Virginia. ^{The label} is also
illustrated with other labels ~~from a booklet~~ ^{period in} the
book by ~~the~~ ^{one} Mallis and ~~on~~ ^{on} American coin
scales and ~~CCDs~~ ^{CCDs}.

It is interesting that none of our first three presidents
had an American made scale, an American label or
even an English label ~~specifying~~ ^{specifying} American ~~the~~ ^{detail} ~~label~~.
